

KANGAROO MATHS: LEAP AHEAD IN MATHEMATICS!

(All classes)

Every month of March the Rodolphe Töpffer lycée is proud to participate in the Kangaroo Maths tournament! A wonderful opportunity for our students to pit their mathematical skills against students from all over the world in this prestigious international tournament.

To take up this challenge and discover maths in a fun way, the lycée organises training sessions during the Friday afternoon refresher classes.

Students can also practise on line with the Kangaroo mini-tests available at <http://www.mathkang.org/tests/>

Mr Dumortier, mathematics teacher, is available to provide any further information about the Kangaroo Maths tournament at: nicolas.durmortier@lycee-topffer.ch
