Objectives

As well as our educational objectives mentioned in the presentation, the specific objectives of the primary section are as follows:

- developing learner autonomy
- acquisition of solid academic basics enabling the continuation of education in the best possible conditions in the public or private secondary system

Note: After completing the Genevan 11th class (called 4ème in the French system), which corresponds to the end of obligatory schooling in Geneva, Lycée Topffer students have a choice when continuing their education:

- direct entry (without entrance exams) into public secondary system in Geneva (known as collège) with the long term objective of passing the Swiss Maturité exam or other high school studies (Lycée Topffer is recognized by the Public Education Department of Geneva)
- continuing in the lycée towards a French baccalaureate which gives access to all universities and schools of further education in Switzerland, France, and internationally.
